

Australian Standard[®]

Cranes—Safe use

Part 10: Elevating work platforms

This Australian Standard was prepared by Committee ME/5, Cranes. It was approved on behalf of the Council of Standards Australia on 30 March 1994 and published on 20 June 1994.

The following interests are represented on Committee ME/5:

A.C.T. Occupational Health and Safety Office
Association of Consulting Engineers, Australia
Australian Chamber of Manufactures
Australian Institute of Building
Bureau of Steel Manufacturers of Australia
Construction and Mining Equipment Association of Australia
Crane Industry Council of Australia
Department of Defence (Commonwealth)
Department of Employment, Vocational Education, Training & Industrial Relations, Qld
Department of Labour, S.A.
Department of Occupational Health, Safety and Welfare, W.A.
Electricity Supply Association of Australia
Institution of Engineers, Australia
Lift Manufacturers Association of Australia
Maritime Services Board of New South Wales
Metal Trades Industry Association of Australia
Occupational Health and Safety Authority, Vic.
Port of Melbourne Authority
Public Works Department, N.S.W.
Railways of Australia Committee
Tasmania—Development and Resources
Telecom Australia
University of New South Wales
Water Board, Sydney—Illawarra—Blue Mountains
WorkCover Authority, N.S.W.
Work Health Authority, N.T.

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 92164.

Australian Standard[®]

Cranes—Safe use

Part 10: Elevating work platforms

First published as AS 2550.10—1994.

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee on Cranes to cover specific requirements for the safe use of elevating work platforms. It is intended for use in conjunction with AS 2550.1—1993, *Cranes—Safe use*, Part 1: *General requirements*.

This Part 10 of *Cranes—Safe use*, specifies the requirements which apply to elevating work platforms. Additional requirements are to be covered by subsequent parts.

Published Standards in the series are:

AS

2550 Cranes—Safe use

2550.1 Part 1: General requirements

2550.4 Part 4: Tower cranes

2550.5 Part 5: Mobile and vehicle-loading cranes

2550.10 Part 10: Elevating work platforms (*this Standard*)

2550.15 Part 15: Concrete placing equipment

It is intended to publish the following parts:

- (a) Guided storing and retrieving appliances.
- (b) Builders' hoists and equipment.
- (c) Special purpose appliances.
- (d) Vehicle hoists.
- (e) Building maintenance units.
- (f) Mast work platforms.

The term 'normative' has been used in this Standard to define the application of the appendix to which it applies. A 'normative' appendix is an integral part of a Standard.

© Copyright — STANDARDS AUSTRALIA

Users of Standards are reminded that copyright subsists in all Standards Australia publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia. Permission may be conditional on an appropriate royalty payment. Requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia.

Standards Australia will permit up to 10 percent of the technical content pages of a Standard to be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia.

Standards Australia will also permit the inclusion of its copyright material in computer software programs for no royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia at any time.

Australian Standard

Cranes—Safe use

Part 10: Elevating work platforms

1 SCOPE This Standard specifies the requirements for the safe use of elevating work platforms. It is complementary to AS 2550.1, but the requirements given herein shall take precedence over the corresponding requirements of AS 2550.1.

It does not cover the specific requirements for the use of elevating work platforms for work on or near live electrical equipment by authorized electricity supply authority persons or their contractors while working for the electricity supply authority as referenced in Clause 9.3. All other requirements given herein shall apply.

2 REFERENCED DOCUMENTS The following documents are referred to in this Standard:

AS

1418	Cranes (including hoists and winches)
1418.1	Part 1: General requirements
1418.10	Part 10: Elevating work platforms
1891	Industrial safety belts and harnesses
2549	Cranes—Glossary of terms
2550	Cranes—Safe use
2550.1	Part 1: General requirements
3504	Fire blankets

3 DEFINITIONS For the purpose of this Standard the definitions given in AS 2549, AS 2550.1 and that below apply.

3.1 Elevating work platforms—a telescoping device, scissor device, or articulated device, or any combination thereof used to position personnel, equipment and materials at work locations above or below the base support surface.

4 PLANNING The planning for the use of elevating work platforms shall be in accordance with AS 2550.1.

5 SELECTION The general matters to be considered before selecting an elevating work platform for a specific operation shall be as given in AS 2550.1. In addition the following shall be considered:

- (a) Working height and reach.
- (b) Mass and bulk of materials, equipment and tools to be elevated.
- (c) Required size and rated capacity of the platform.
- (d) Wind loading.
- (e) Wheel and outrigger or stabilizer loadings imparted to the support surface.
