

Australian Standard®

Methods of testing sheet roof and wall cladding

Part 0: Introduction, list of methods and general requirements

INTRODUCTION

These test methods are to be jointly prepared by the Standards Australia committees on Metal Roofing Construction, Fibre Cement Building Products and Plastics Building Sheets.

When complete, the series will comprise the test methods in the 1980 edition of AS 1562, *Design and installation of metal roofing*, the 1990 edition of AS 1639, *The design and installation of corrugated fibre-reinforced cement roofing and wall cladding* and the 1991 edition of AS 2424, *Plastics building sheets—General installation requirements and design of roofing systems*.

LIST OF METHODS

Number	Date	Title
AS 4040.1	July 1992	Resistance to concentrated loads
AS 4040.2	July 1992	Resistance to wind pressures for non-cyclone regions
AS 4040.3	July 1992	Resistance to wind pressures for cyclone regions
